Srikanth Mohankumar

Engineering Lead | SaaS & Automation Platforms
Tamil Nadu, India

Summary

Software Engineer and SaaS Product Builder with 8+ years of deep expertise in the publishing domain, specializing in building cloud-native automated typesetting platforms, AI-driven content transformation systems, and scalable SaaS solutions. Started coding journey in 2017 by building automation tools that achieved 4x productivity improvements, evolving from content production roles into software engineering and product architecture.

Currently functioning as Engineer — Product & Prototyping at TNQ Tech, driving technical coordination, cross-functional collaboration, and end-to-end product delivery for enterprise publishing workflows. Contributed significantly to NeoPage, a cloud-based automated typesetting SaaS platform that reduces licensing costs, achieves 60% quality parity with commercial tools, and delivers 2x performance improvements.

Brings strong product mindset: requirement analysis, workflow feasibility, user-story refinement, and impact-focused delivery. Experienced in running Agile ceremonies, optimizing team flow using Kanban and RCA, and mentoring cross-functional teams.

Hands-on with AI agents and agentic workflows

Experience

TNQTech
3 years 7 months
Engineering Lead
April 2026 - Present (3 months)

Software Engineer
December 2022 - March 2026 (3 years 4 months)
Chennai

- Own ambiguous problem spaces in enterprise publishing workflows; translate unresolved industry pain points into working POCs, MVPs, and production-ready systems
- Core contributor to NeoPage, a cloud-based automated typesetting platform reducing dependency on licensed tools (3B2, Antenna House)
- Achieved 2× performance improvement via on-the-fly PDF pagination (10–30s vs. 60+s)
- Built distributed content transformation services using Python, Node.js, FastAPI, Docker, AWS Lambda, and MongoDB
- Led feasibility analysis, workflow design, and automation planning with product, production, and QA teams
- Served as internal Scrum facilitator; improved predictability using Kanban flow and RCA
- Created LLM demos and GenAI showcases for stakeholders to modernize legacy publishing pipelines

Lapiz Digital Services

Team Lead

April 2022 - November 2022 (8 months)

Ranipet, Tamil Nadu, India

- Leading the overall production team of 35+ professionals.
- Monitored the entire production process from conception to completion, ensuring accuracy and quality of content.
